PROFESSIONAL SUMMARY

- Over 4 years of experience in project financial controls, reporting governance, and operational coordination across analytics and investment services environments.
- Hands-on experience in budgeting, forecasting, variance analysis, and accrual management, ensuring alignment between forecasted and actual project performance.
- Directed billing coordination, AR/AP activities, and month-end financial reviews, maintaining accurate financial records and timely invoicing.
- Produced leadership-level dashboards, financial summaries, and insights to support executive decision-making and portfolio performance tracking.
- Partnered with cross-functional stakeholders to manage risks, issues, SLA performance, and reporting deliverables while ensuring governance compliance.
- Strong expertise in SharePoint governance, reporting automation, and analytics tools including Tableau, SQL, and advanced Excel.

WORK EXPERIENCE

C2 Prep, Brampton, Canada (Contract)

Oct 2025 – Jan 2026

IT Operations & Governance Lead

Project – Learning Platform Integration & IT Support Process Improvement

Internal operations initiative supporting tutoring services — integrating online learning tools, video conferencing platforms, and centralized IT support workflows for students, tutors, and administrative staff, to improve service reliability and communication between tutoring teams and support operations.

- Coordinated implementation of online learning and video conferencing tools supporting hybrid tutoring sessions.
- Oversaw IT support operations ensuring 99% SLA compliance across student, tutor, and parent service requests.
- Standardized support workflows and troubleshooting documentation, reducing issue resolution time by 20%.
- Facilitated coordination between tutors, administrative staff, and IT support teams during system rollout.
- Delivered staff training sessions on cybersecurity awareness and data protection practices.

S&P Global, Hyderabad, India

Mar 2022 – Dec 2022

Research Specialist (Project & Reporting Governance)

Project – ESG Data Reporting & Research Workflow Modernization

Program size: ~\$3.2M Global Research Operations Initiative. Supported modernization of ESG research reporting workflows used in sustainability assessments and corporate responsibility reporting across North America, EMEA, and APAC — focused on project financial controls, reporting accuracy, and operational coordination supporting leadership reporting and project tracking.

- Performed monthly accrual analysis to ensure accurate recognition of project costs and revenues in alignment with financial reporting standards.
- Collaborated with delivery teams to estimate and validate cost accruals, reducing variance between forecasted and actuals.
- Improved billing accuracy by coordinating with finance teams on invoice validation and payment tracking, cutting processing errors by 18%.
- Accelerated leadership reporting by automating Tableau dashboards for 20+ datasets, cutting turnaround time by 30%.
- Strengthened governance standards by structuring SharePoint documentation, enabling faster audit-ready report retrieval and shortening planning delays by 10 days.
- Enhanced cross-regional alignment by collaborating with NA, EMEA, and APAC teams to standardize reporting outputs and eliminate inconsistencies.

SG Analytics Pvt. Ltd. (MSCI), Pune, India

Jan 2018 – Feb 2022

Analyst (Project Control – Financial & Compliance Operations)

Project – ESG Research Data Operations & Portfolio Reporting Governance

Program size: ~\$2M multi-year client engagement, Time & Material contract. Supported ESG data analytics and reporting operations for investment portfolio datasets used by global research analysts, evaluated by institutional investors assessing ESG risk exposure — required strong controls across financial reporting, billing reconciliation, and performance tracking.

- Owned end-of-month accrual entries, ensuring completeness of expenses for services rendered but not yet invoiced.
- Analyzed accrual trends and variances, providing insights to stakeholders for improved budget forecasting and cost control.
- Reduced working capital pressure by implementing a LOB-based AR monitoring process, improving collections efficiency by 25% within 4 months.
- Reinforced financial oversight by conducting monthly budget reviews (~\$55K spend) and reconciling billed vs. unbilled activities.
- Prevented revenue leakage by managing WIP tracking, invoice validation, and AR/AP reconciliation across project accounts.
- Boosted reporting efficiency by developing SQL/Python dashboards, reducing manual reporting effort by 40%.

The Bank of New York Mellon, Pune, India

Dec 2016 – Nov 2017

Operations Executive

- Supported fund accounting operations for asset management clients, assisting with NAV preparation and reporting.
- Executed cash, trade, and position reconciliations to ensure portfolio reporting accuracy.
- Partnered with portfolio managers, custodians, and internal teams to resolve reconciliation breaks.
- Assisted with daily and monthly fund reporting cycles supporting asset management operations.
- Maintained operational documentation and records supporting compliance and audit requirements.

Nucleosys Technologies, Pune, India

Jan 2015 – Nov 2016
