

Keshaav Gite
Project Coordinator — PMP, CSM | PMO Support · Portfolio Financials · Executive Reporting
Toronto, Ontario · keshavg0876@gmail.com · (437) 331-5861 · [LinkedIn](#)

SUMMARY

PMP and CSM certified Project Coordinator with robust experience driving PMO governance, RAID tracking, and portfolio financials. Adept at consolidating cross functional workstreams and managing dependencies for enterprise programs valued up to \$3.2M. Proven track record of reengineering intake models and automating leadership dashboards to cut manual reporting effort by 40 percent. Highly skilled in aligning Agile delivery teams to ensure seamless execution and precise budget tracking.

WORK EXPERIENCE

C2 Prep, Brampton, Canada

Oct 2025 – Jan 2026

IT Project Coordinator

- Partnered with delivery leads to re-engineer the change-intake model, cutting issue resolution time 20% (~10 to ~8 business days) across 15+ concurrent requests.
- Tracked risks, issues, actions, and dependencies (RAID) across the delivery lifecycle, surfacing 8–10 late risks per cycle and closing them ~1 week earlier.
- Consolidated 4+ fragmented trackers into one version-controlled documentation repository, cutting ~5 hours/week of duplicate status upkeep.

S&P Global, Hyderabad, India

Mar 2022 – Dec 2022

Research Specialist (Reporting & Governance)

- Prepared bi-weekly executive status reports, consolidating inputs from 10+ workstreams on a \$3.2M program into portfolio-level roll-ups, cutting turnaround ~30%.
- Liaised directly with Project Managers across concurrent initiatives, running governance forums, minutes, and action logs to keep 10+ delivery leads current.
- Supported portfolio financial management — budget tracking, allocation, and month-end — escalating variances 2–3 weeks earlier before they hit the forecast.
- Drove 60+ RAID items to closure via structured escalation, cutting the aging-risk backlog ~35%.
- Managed cross-team dependencies and schedules live in Jira and Confluence.

SG Analytics (MSCI), Mumbai, India

Jan 2018 – Feb 2022

Project Control Analyst

- Overhauled leadership dashboards on project health, financials, and delivery risk, cutting manual reporting effort 40% across 6+ teams.
- Coordinated vendor invoice review against deliverables and cost allocations across the portfolio, supporting accurate month-end financials.
- Reconciled budget, forecast, and cost variance, delivering numbers delivery leads used without a recheck.
- Standardized reporting frameworks, trimming manual effort 20–30% and ~2 days off each month-end close.

EDUCATION

Algoma University — Graduate Certificate, Project Management, Canada

Jan 2025

Mumbai University — MBA, India

Feb 2015
