

Keshaav Gite

IT Project Coordinator — PMP, CSM | SDLC Coordination · Agile Delivery · Systems Integration Reporting

Toronto, Ontario · keshavg0876@gmail.com · (437) 331-5861 · [LinkedIn](#) · [Portfolio](#)

SUMMARY

PMP and CSM certified IT Project Coordinator with 7+ years coordinating technical delivery across Agile and Waterfall SDLC environments — sprint planning, change-intake workflow design, UAT coordination, and systems-integration reporting. Consolidates cross-functional workstreams and dependencies for enterprise programs valued up to \$3.2M, using Jira, Confluence, and SharePoint as the coordination backbone. Re-engineered intake models and automated leadership dashboards to cut manual reporting effort by 40%. Keeps technical and business teams reading from the same page, before a gap becomes a release problem.

WORK EXPERIENCE

IT Project Coordinator (Contract)

Oct 2025 – Jan 2026

C2 Prep, Brampton, Canada

- Partnered with delivery leads to re-engineer the change-intake model using Agile-based sprint planning, cutting issue resolution time from 10 to 8 business days across 15+ concurrent requests.
- Tracked risks, issues, actions, and dependencies (RAID) across the delivery lifecycle, surfacing 8–10 late risks per cycle and closing them a week earlier.
- Consolidated 4+ fragmented trackers into one version-controlled SharePoint repository, cutting 5 hours per week of duplicate status upkeep.

Research Specialist (Project Management Office)

Mar 2022 – Dec 2022

S&P Global, Hyderabad, India

- Prepared bi-weekly executive status reports, consolidating inputs from 10+ workstreams on a \$3.2M program into portfolio-level roll-ups, cutting turnaround 30%.
- Ran governance forums and structured escalation in Jira and Confluence, driving 60+ RAID items to closure and cutting the aging-risk backlog 35%.
- Liaised directly with Project Managers across concurrent initiatives, running minutes and action logs that kept 10+ delivery leads aligned and prevented duplicate follow-ups.
- Supported portfolio financial management on the \$3.2M program — budget tracking, allocation, and month-end — escalating variances 2–3 weeks earlier before they hit the forecast.

Analyst (Project Control)

Jan 2018 – Feb 2022

SG Analytics (MSCI), Mumbai, India

- Supervised UAT cycles across reporting releases, logging defects with business users and tracking remediation through to sign-off.
- Overhauled leadership dashboards on project health, financials, and delivery risk, cutting manual reporting effort 40% across 6+ teams — roughly 830 analyst-hours a year.
- Facilitated onboarding and offboarding of project resources, coordinating system access, documentation, and transition handoffs to maintain delivery continuity.
- Reconciled budget, forecast, and cost variance across a ~\$2M enterprise program spanning a 20-person delivery organization, resolving every discrepancy before month-end sign-off — zero unexplained variance.
- Standardized reporting frameworks and re-engineered manual workflows, trimming effort 20–30% and 2 days off each month-end close.

Operations Executive

Dec 2016 – Nov 2017

The Bank of New York Mellon, Pune, India

- Coordinated with portfolio managers, custodians, and internal teams to resolve reconciliation breaks across daily fund reporting cycles.

Junior Accountant

Jan 2015 – Nov 2016

Nucleosys Technologies, Pune, India

- Managed day-to-day accounting operations across 15+ concurrent projects, tracking and resolving discrepancies through to close-out.

ADDITIONAL WORK EXPERIENCE

Fulfillment Associate (Night Shift)

Nov 2025 – Present

Amazon, Canada

- Maintained high accuracy and process compliance in a high-volume, metrics-driven fulfillment operation, earning 10 Quality Performer badges.

EDUCATION

Algoma University — Graduate Certificate, Project Management, Canada

May 2023 – Jan 2025

Mumbai University — MBA, India

May 2012 – Feb 2015

CERTIFICATIONS & SKILLS

Certifications: PMP (Mar 2025) · CSM (Apr 2025) · Discovering SAP Analysis for Microsoft Office (Apr 2025)

IT & SDLC Coordination: Agile Sprint Planning · Change-Intake Workflow Design · UAT Coordination · RAID Tracking · Governance Forums (Jira/Confluence) · Systems Integration Reporting · Resource Onboarding & Offboarding

Coordination & Governance: Meeting Minutes & Action Logs · Executive & Portfolio Status Reporting · Stakeholder Follow-up · Dependency Management · Delivery Assurance & Audit Readiness

Tools: Jira · Confluence · SharePoint · MS Project · Advanced Excel (Pivots, VLOOKUP/XLOOKUP) · Clarity PPM · Planview · Power BI

Also: Budget & Forecast Tracking · Cost-Variance Analysis · Agile & Waterfall/Hybrid · SDLC Coordination
