

Keshaav Gite

Senior Reporting Consultant — Climate Performance | ESG & GHG Reporting · Data Analysis · Financial Reporting · Executive Insights
Toronto, Ontario · keshavg0876@gmail.com · (437) 331-5861 · [LinkedIn](#) · [Portfolio](#)

SUMMARY

Reporting and data analysis professional with 7+ years turning large, complex datasets into clear executive insights across banking, financial services, and ESG/climate research environments. Experienced in financial reporting (budget, forecast, variance analysis and cost allocation) and sustainability/climate reporting (GHG emissions data under GHG Protocol and PCAF, TCFD-aligned disclosures, and quarterly climate reporting for an MSCI-affiliated ESG client). Skilled in Excel-based analysis of large datasets, reporting methodology, data quality management, executive reporting, and stakeholder coordination — including leading a 10-person data quality team. PMP/CSM certified, with experience managing competing project priorities alongside core analytical work.

WORK EXPERIENCE

IT Project Coordinator, Project Controls (Contract)

Oct 2025 – Jan 2026

C2 Prep, Brampton, Canada

- Re-engineered the delivery and change-control intake model after recurring delays, cutting issue resolution time from 10 to 8 business days across 15+ concurrent changes.
- Standardized reporting documentation and methodology by consolidating 4+ fragmented trackers into one audit-ready, version-controlled repository, cutting 5 hours per week of duplicate upkeep.

Research Specialist (Reporting & Governance)

Mar 2022 – Dec 2022

S&P Global, Hyderabad, India

- Built the integrated project-controls view — schedule, cost, risk, dependencies — across a \$3.2M ESG data reporting and research workflow modernization program's 10+ workstreams, cutting reporting turnaround 30%.
- Tracked budget, forecast, cost variance, and cost allocation on the \$3.2M ESG data reporting program against Finance inputs, escalating variances 2–3 weeks earlier before they moved the forecast.
- Produced sustainability and climate-related reporting outputs for the program's ESG research teams, translating GHG and ESG datasets into structured deliverables for stakeholder review.
- Supported TCFD-aligned climate risk disclosure inputs by tracking program costs and resource allocation tied to GHG and ESG data initiatives, ensuring reporting inputs were accurate, documented, and audit-ready.
- Translated program data into leadership-ready insights via the Director-level steering-committee cadence — agendas, pre-reads, decision/action logs, and reporting packs for bi-weekly governance forums.

Analyst (Project Control)

Jan 2018 – Feb 2022

SG Analytics (MSCI), Pune, India

- Led quarterly ESG and climate performance reporting for the MSCI account, building dashboards and executive briefings that translated GHG emissions and TCFD-aligned metrics into leadership-ready insights.
- Led a 10-person quality team validating ESG and GHG emissions datasets before client delivery, ensuring accuracy and audit-readiness across each quarterly reporting cycle.
- Overhauled leadership dashboards on ESG data quality, reporting accuracy, and delivery risk, cutting manual reporting effort 40% across 6+ teams — roughly 830 analyst-hours a year.
- Coordinated with cross-functional stakeholders across research, data, and delivery teams to align ESG reporting methodology and ensure consistent, audit-ready outputs.
- Reconciled budget, forecast, and cost variance across the ~\$2M MSCI ESG research engagement spanning a 20-person delivery organization, maintaining accurate financial reporting and timely variance escalation.
- Managed workload allocation across 3-4 teams totaling ~30 analysts on the MSCI account, balancing capacity against concurrent ESG data and reporting deliverables.

Operations Executive

Dec 2016 – Nov 2017

The Bank of New York Mellon, Pune, India

- Supported fund accounting operations for asset management clients, assisting with NAV preparation and reporting.
- Performed cash, trade, and position reconciliations to ensure portfolio reporting accuracy.
- Coordinated with portfolio managers, custodians, and internal teams to resolve reconciliation breaks.

Junior Accountant

Jan 2015 – Nov 2016

Nucleosys Technologies, Pune, India

- Managed day-to-day accounting operations across 15+ concurrent projects, tracking and resolving discrepancies through to close-out.

ADDITIONAL WORK EXPERIENCE

Fulfillment Associate (Night Shift)

Nov 2025 – Present

Amazon, Canada

- Maintained high accuracy and process compliance in a high-volume, metrics-driven fulfillment operation, earning 10 Quality Performer badges.

EDUCATION

Algoma University — Graduate Certificate, Project Management, Canada

May 2023 – Jan 2025

Mumbai University — MBA, India

May 2012 – Feb 2015

Mumbai University — Bachelor of Commerce, India

May 2008 – June 2011

CERTIFICATIONS & SKILLS

Certifications: [PMP](#) (Mar 2025) · [CSM](#) (Apr 2025) · [Discovering SAP Analysis for Microsoft Office](#) (Apr 2025)

Project Controls: Integrated Scheduling · RAID Management · Change & Decision Logs · Milestone & Dependency Tracking · UAT Coordination · Delivery Assurance & Audit Readiness · Enterprise Governance Support · Risk & Issue Escalation · ESG/GHG Reporting (GHG Protocol, PCAF, TCFD)

Financial Management: Budget & Forecast Tracking · Accrual Management · Cost-Variance Analysis · Cost Allocation · Month-End/Quarter-End · Vendor Invoice Validation

Tools: Advanced Excel (Pivots, VLOOKUP/XLOOKUP) · Clarity PPM · Planview · Jira · Confluence · SharePoint · MS Project · Power BI · Tableau

Delivery: Agile & Waterfall/Hybrid · Cross-Functional Dependency Management
